Blockchain Technical Notes

Installing git on Windows 10/11

Phillip G. Bradford[1]

SCRIPT SUMMARY

This script shows how to install git on Windows 10/11.

DETAILS

Git is a source control system. We use git in this workshop. It is not pre-installed on Windows machines.

So let's install it!

INSTALLATION

Please go to this link and follow the instructions

https://github.com/git-guides/install-git

This is at your own risk.
